

Cory Albrecht

Since 2007 Cory has been assisting manufacturers in the Mohawk Valley Region through the New York State Manufacturing Extension Partnership Program. This program provides manufacturing and technology development services to the small and medium sized manufacturers in Oneida, Herkimer, Fulton, Montgomery, Schoharie and Hamilton Counties. Currently, Cory is the Director of MVCC's Advanced Institute for Manufacturing (AIM). In this role, Cory will be working with over 700 Mohawk Valley Regional manufacturers and helping them increase their competitiveness and grow their businesses. Cory is very active in advancing technology and developing ideas for new products and services throughout the region.
