FUNDS ACQUIRED

Source: Estimated results reported directly by NY MEP clients via independent, third-party surveys conducted on behalf of the U.S. Department of Commerce, National Institute of Standards and Technology, Manufacturing Extension Partnership.

The New York State Manufacturing Extension Partnership (NY MEP) assists small to medium-sized manufacturers in becoming more competitive.

The New York State Manufacturing Extension Partnership (NY MEP) is a vital resource for small to medium-sized manufacturers across New York State. Through its network of 10 regional centers and one statewide center, FuzeHub, NY MEP provides critical services and expert guidance designed to help manufacturers stay competitive, adapt to technological advancements, and achieve sustainable growth in an increasingly complex market.

NY MEP is the only program dedicated to supporting small and mid-sized manufacturers' competitiveness.

NY MEP is **creating or saving 1 job for every \$1,490** in federal and state government funding.

HOW THE NY MEP POWERS THE NYS MANUFACTURING INDUSTRY

Accelerate Modernization
and adoption of advanced technologies

Provide Workforce Development
and training

Improve Economic Competitiveness
& find new markets
